Healing - Medicated - Controls Psoriasis

The Only Friend Your Skin Will Ever Need

THE NEW MODERN RELIEF SYSTEM THAT HEALS DAMAGED SKIN AREAS LIKE NEVER BEFORE

RexEme Cream was developed through study and research. Five years went into studying results in test cases. It was marketed in one pharmacy, in a mid-sized city, as far back as 1973. Twenty-one years of use have proven beyond any doubt, the success rate and effectiveness, as well as safety, of this unique topical-white cream. Hundreds of testimonial cases speak for themselves. Rashes disappear and skin itching and irritations cease. No other product heals skin tissue faster or more completely, leaving skin soft, clear and refreshed.

RexEme Cream is soothing, non-staining, with no sting, so it can be used on anyone of any age, every day. Leaves skin feeling younger, more supple. It hydrates all day as a mega moisturizer, penetrating deep, while repairing skin tissue!

Greaseless (water washable), it disappears and penetrates into the skin with light rubbing, passing deep into base cell layers of skin, to enhance flexibility, so the skin flexes easily, then returns to a younger expression. No fragrance, steroids, coloring, preservatives, dyes, sodium or alkali, makes this space-age product safe and so easy and pleasant to use. Also hypoallergenic.

And RexEme Cream won't clog skin pores!

RexEme Cream is powerful and medicated and has a concentrated patented base causing it to melt on mere contact with one's skin surfaces. Menthol-Eucalyptus smell is pleasing but can irritate eyes. It should be kept away from the eyes and other sensitive parts of the body. However, genital rash and chapped conditions will disappear overnight. Keep all drugs and this medication out of the reach of children.

Do not use on large skin areas.

Ingredients: Resorcinol, Phenol, Camphor, Vitamin E, Menthol and Eucalyptol, Petrolatum, Steryl, Cetyl Alcohol, Lanolin, Water.
